

## Hướng dẫn cài đặt MongoDB

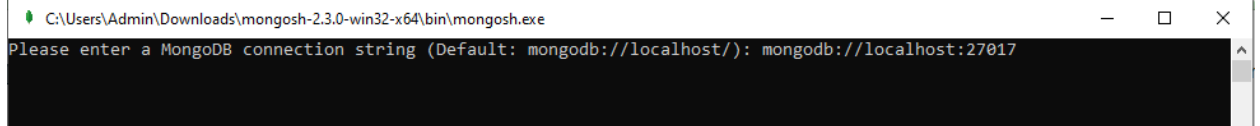

1. Link cài đặt
2. Chọn Complete

3. Không chọn Install MongoDB Compass

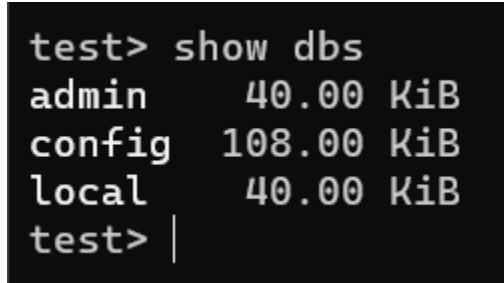

4. Tải mongoDB Shell: <https://www.mongodb.com/docs/mongodb-shell/>
5. Khởi chạy mongosh.exe

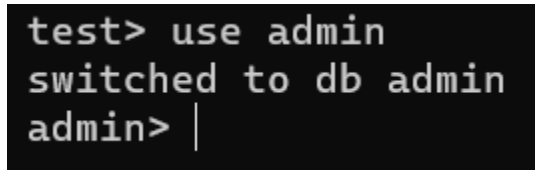

```
C:\Users\Admin\Downloads\mongosh-2.3.0-win32-x64\bin\mongosh.exe
Please enter a MongoDB connection string (Default: mongodb://localhost:27017)
```

6. Liệt kê tất cả CSDL

```
test> show dbs
admin      40.00 KiB
config    108.00 KiB
local     40.00 KiB
test> |
```

7. Chuyển sang database admin

```
test> use admin
switched to db admin
admin> |
```

8. Gõ **exit** để thoát
